Bunting Catalogs Now Available in Spanish

Bunting is pleased to announce that we are now offering our brand new catalogs for the food, plastics, metal working, magnets and magnetic assemblies, and aggregate, mining, and mineral industries in the Spanish language. As a global company with locations throughout the world, we understand how important it is to offer our catalogs in multiple languages so as to best serve the needs of our customers.

New Catalogs with Full-Color Photos and Illustrations

Our catalogs have been completely rewritten and updated with all new images and graphics. As part of our 2019 rebranding campaign, we have not only updated our brand imagery, but also all of our catalogs, literature, and other materials. When you receive our Spanish language catalog, you will be able to read detailed descriptions of our products and see them displayed in high-definition, full color photographs. Our catalogs also include our “Perfect Plant” diagrams, which illustrate how multiple Bunting products may be installed in your facility to create a comprehensive system.

Bunting Offers Extensive Range of Products Serving Many Industries

Bunting’s catalogs feature our extensive range of products, including magnetic separation, metal detection, conveyors and conveyor components, and custom designed magnets and magnetic assemblies. In addition to offering Spanish language catalogs, we also have Spanish speaking sales representatives who can assist you in selecting the perfect equipment for your needs.

Bunting offers extensive customization options for all of our equipment. We will work with you to determine your exact needs and develop a custom product to suit the requirements of your industry, facility, and customers. By working with you in Spanish, we surpass the difficulties that can be presented by a language barrier, and provide you with an improved customer service experience.

If you are interested in viewing or downloading a FREE copy of any of Bunting’s new Spanish language industry catalogs, complete with full-color photos, please visit our website at www.buntingmagnetics.com or www.buntingmagnetics.com/es/ and click on the “Catalog” tab.
