### CDE & Granite to unveil major wash plant in Utah

CDE, one of the leading suppliers of sand and aggregate washing solutions for the waste recycling and natural minerals processing sectors, has commissioned a wash plant for Granite (NYSE:GVA) at the company's Coyote Pit in Grantsville, Utah.

On October 23<sup>rd</sup>, CDE and Granite will officially present the innovative 550+ tons per hour (TPH) [sand and aggregate wash plant](#) to the industry, along with [CDE's preferred partner Goodfellow Corporation](#), as part of an exclusive open house preview event.

Granite, one of the largest diversified construction and construction materials companies in the United States, is a full-suite civil construction provider that delivers infrastructure solutions for public and private sector clients throughout the United States.

Granite's operations include 35 aggregate and 59 asphalt plants across seven western states and one province, including Utah, Nevada, Arizona, Washington, Oregon, Alaska, and California and British Columbia, Canada.

Granite Materials Manager Ric Skinner said, "Our goal is to efficiently produce the highest quality aggregates in our market to support our customers and their projects. It's exciting to be partnered with CDE to build a plant that does exactly that."

Plant Manager, Stormy Watne added, "Projects of this scale require all parties to pull together, with meticulous planning, attention to detail, and commitment. We are very proud of our new wash plant and look forward to welcoming everyone to tour our operations."

CDE Business Development Manager Ryan O'Loan elaborated, "The Salt Lake City metropolitan area is expanding at a rapid rate and resources are in high demand, which is the backdrop to this important Grantsville development. Granite's latest materials operation can ensure a consistent and reliable supply of sand and aggregates in the local market for many years to come and we're proud that it will be CDE technology that underpins the operation to help maximize its lifespan and realize its potential."

"With companies like Granite investing in CDE's materials washing solutions, together we can address the global sand shortages, through proven design, efficient processing, optimized operations."

The open house event takes place on Wednesday, October 23<sup>rd</sup> from 8am – 4pm (MT).

For more information and to secure your place at this open house event, please visit [CDE's website](#).
