

FOR IMMEDIATE RELEASE: Mine Resource Group Joins GK's Family of Aggregate Equipment Suppliers

February 14, 2025: Mine Resource Group (MRG), an Indiana-based aggregate equipment, parts, and service supplier, partners with General Kinematics, an Illinois-based vibratory equipment manufacturer and system integrator. This partnership strategically allows GK to further increase its ability to readily service customers in the aggregate and mining industries.

With several decades of experience servicing aggregate industry customers with equipment, on-site services, consulting, and a supply of wear parts selection, Mine Resource Group is a welcome addition to GK's family of aggregate equipment suppliers.

Elliott Tribble, Market Director of the Aggregate Industry at General Kinematics, stated, "Our team is excited to be working with Mine Resource Group in Indiana and Kentucky. Their customer-first focus aligns perfectly with General Kinematics."

J.P. Mitchell, Owner and President of Mine Resource Group, commented, "Our team at MRG is excited for this opportunity to partner with GK. We look forward to increasing market share of their products in Indiana and Kentucky."

General Kinematics offers vibratory aggregate screening and feeding equipment designed to withstand the intense environments associated with aggregate processing. This equipment provides aggregate plants with maximum efficiency and productivity. For more information, contact GK's sales team at info@generalkinematics.com.

About General Kinematics

General Kinematics Corporation, incorporated in 1960, was established to market, design, and custom fabricate innovative vibratory equipment for the foundry, recycling, mining, and processing industries. Today the company continues as one of the world's largest suppliers of vibratory processing equipment and has evolved into an industry-leading EPC firm. Headquartered in Crystal Lake, IL, General Kinematics

has seven global locations providing engineering and support to a worldwide customer base. GK is a third-generation, family-owned company and is ISO 9001 certified.

About Mine Resource Group

Mine Resource Group (MRG) offers a variety of aggregate equipment, parts, and services to meet customers' needs. MRG works directly with producers to uncover opportunities for improvement in their plants and help them reach their goals. Based in Bloomington, Indiana, MRG is positioned to service aggregate customers in Indiana, Kentucky, Ohio, and Michigan.
